Karara School Values

Karara’s Social and Emotional program is getting closer to launching. Over the course of the term, Karara State School will adopt new school values which reflect Karara and its community. These values will form part of the everyday lives of the students and, each week, the students will engage with these values through a series of lessons and activities. Keep your eye out on this section of the newsletter each week to find out what each Value means to Karara State School and how the students are actively involved.
