Mission Australia

Youth Survey 2013 launches!
We have now launched Mission Australia’s Youth Survey 2013. This important tool asks young Australians aged 15-19 years what they value, where they turn for advice and support, what issues concern them, how they are involved with their community and their feelings about their future.

Powerful Results
Mission Australia’s annual Youth Survey is recognised as a valuable source of information by government, academics and the media. Since the inaugural survey in 2002, we have surveyed hundreds of thousands of young people and made the results public.

Following the survey, we publish a comprehensive report on the national and state or territory results. This always drives huge media interest, with the research cited in articles throughout the year providing continuous exposure for Mission Australia’s work.

Important, the results of the survey help us to develop youth advocacy strategies that are shaped by the voices of young people themselves. It also assists us with the development of programs and services that meet young people’s needs, as well as being a key resource for policy makers.

Get Involved!
It’s important that we get as many young people as possible to take part so please encourage participation through your relevant networks – clients, staff, family members, youth and church groups, other welfare agencies, support groups and community organisations – or by setting up stands at events or even busy shopping areas.

Share the link to the survey through your social networks such as Facebook, Twitter and Linkedin and help reach as many 15-19 year olds as possible to encourage their participation in this informative survey.

The survey can be completed online at mayouthsurvey.com.au or in paper form by emailing a request to mayouthsurvey@missionaustralia.com.au with the required quantities and the delivery address.

The survey is open until Friday 28 June 2013.
